

#MakingITwork

BT-SA offers **Building Management Systems** that will save you **cost and time**, giving you piece of mind that your facilities are in good hand. We provide **monthly reports** that allows you a complete overview of your operations – **always one step ahead**.

AIR CONDITIONING

BT-SA conducts planned, ad-hoc and emergency maintenance, repairs, upgrades and replacement of all air conditioning brands.

ELECTRICAL SUPPORT

BT-SA performs planned maintenance and repairs of generators, UPS units and electrical installations. Our service offering also includes new installations of all of the above.

FIRE DETECTION & SUPPRESSION

After audit and report according to SANS industry regulations, BT-SA recommends upgrades, repair, and compiles a service schedule that includes monthly incident reports.

SECURITY SYSTEMS & CCTV

Includes all perimeter security, access control and CCTV integration, design and installation.

TELECOMMUNICATIONS

BT-SA specialises in network cabling infrastructure (fibre optics and UTP) as well as interconnections between equipment cabinets.

ENVIRONMENTAL MONITORING

As a **premier service** offering, BT-SA does environmental monitoring in all telecommunications and equipment rooms – temperature and humidity.
